Revealed: the secret of effective assessment

Discover how schools across the country are using MAPS to raise standards in assessment

MAPS - raising standards in assessment

MAPS is an online personalised work space allowing students to create structured e-portfolios of their work.

Benefits of using MAPS

FOR HODS & HEAD TEACHERS

- Reporting tools to analyse student, class and school performance data
- Data can be transferred with the student to and from other schools
- Moderation portfolios allow teachers and staff to share thoughts and ideas on levelling students' work
- Develop home-school links with 'Parent News Feeds' services.

FOR TEACHERS

- Centralised online management of the assessment of students' work
- Assign tasks online, by individuals, groups or whole classes
- Access students' work online for annotating, marking, assessment and moderation.
- Import your own learning resources, including SCORM content and quizzes
- Include mark sheets for popular eQualifications: OCR Nationals, CLAIT & iMedia and AQA qualifications
- Submit coursework online to awarding bodies for selected courses.

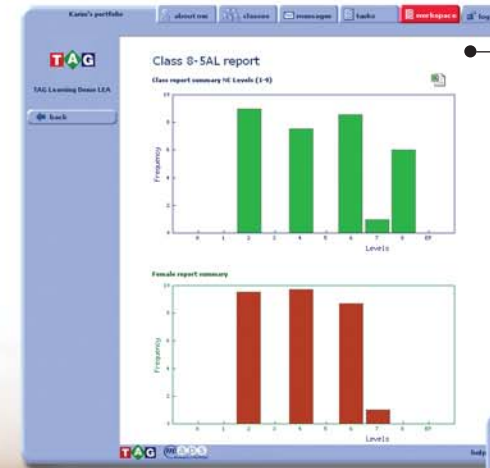

FOR STUDENTS

- Students can customise their own eportfolios
- Store and hand in work electronically
- Communicate with teachers and peers for help and guidance
- Structured task based forums encourages students to communicate and collaborate on their work.
- Help raise motivation and achievement
- A secure environment designed to meet students' learning needs.
